Sir,

BUILDINGS - South Kanara District - Collector's Bungalow fixing of electric lights on the road leading to the Bungalow.

The distance between the main enterance on the public road and the Collector's Bungalow is a little more than a furlong and the Bungalow is situated on an elevated place, the road leading to it takes a big curve before it reaches the gate, and the whole road is up a gradient. Though the Bungalow is electrified, there are no lights between the portico of the Bungalow and the main road and at nights after dusk it is very difficult for any person to come to the Bungalow on account of darkness, there being no light on this road between the main road and the bungalow. I therefore requested the Executive Engineer, P.W.D., Mangalore to arrange for putting up the required numbers of lights on this road. The Executive Engineer has now submitted an estimate for Rs.1850/- (One thousand eight hundered and fifty only) for the said work and has applied for Government sanction to execute the work. I request that the Government may be pleased to accord sanction for execution of the work at an early date.

The estimate and the plan submitted by the Executive Engineer are enclosed for perusal and return.

PWD(C)
Rev. U.O.

Yours faithfully,

For Collector.

Enc: plan and estimate.

Read: Government Memorandum No.51920 C/50-1 Revenue dated 30-7-51.

L.Dis:

In view of the prevailing high cost of labour and materials and the existing restrictions on expenditure on all but essential work the Board considers that the present is not the oppurtune time to take up the electrification of the road leading to the Collector's bungalow at Mangalore. Further the work if executed will be of no benefit except to the Collector himself and a few visitors. The road also is good except that it is on a gradient. It therefore directs that the work be postponed to better times.

for SECRETARY.

To the Secretary to Government, Revenue Department, (with estimate and plan
